

# Promoting Quality Patient Care

A values based toolkit to select potential mentors

We all have a role model,  
someone we aspire to be like

Can you think of someone who  
has inspired your learning?

Are you ready to be  
someone's inspiration?

The role of the mentor is to develop learners and our future workforce.

## Could this be you?

To determine whether you have the right skills, behaviors and values to be a mentor, a values based toolkit has been developed. The toolkit will **enable you to discuss with your manager this important role required to be a gatekeeper for your profession** with the aim of promoting the ongoing safety and quality of care for service users.

Take a look...
